September, 2009

Dear Mike,

Thanks again, as I could not think of a better way to have started of our Annual Convention this year. Your keynote presentation was full of excitement and the attendees were fully engaged with your session.

As a meeting planner during these economic times, it is important to provide valuable sessions so that attendees will see the value of attending, and you delivered. You were just the right fit for our event and I what else can I say. Extraordinary!

Best Regards,

Bryan Wood  
Director of Certification
