I have informed my successor that you should be highly recommended for future programs with us. Here is what those who really count (the audience) had to say about you:

As a program planner, my greatest achievement is when I hit the objective of the conference on the mark. Your session was a complete home-run for my evaluation. It was not only entertaining, but informative and concretely useful to the attendees. Thank you again for your fantastic participation and for your contribution to making this conference a huge success!

Sincerely,
