

April 30, 2019

Mike Hourigan was a keynote speaker at our Annual Training Conference for Automotive Recyclers. He definitely did his research and tailored his speech for our unique audience. He gave specific information and suggestions for everyone to walk away with and implement in their businesses. He was very knowledgeable, personable and funny, and used personal stories to make the session interesting. I would highly recommend Mike to anyone looking for a keynote speaker as he was a pleasure to work with.
