

December 20, 2019

We had the pleasure of Mike Hourigan presenting a half-day session at our annual partners retreat. His message was on point, reminding us about negotiation skills and the importance of cross-selling. His message was well received and kept the entire group engaged. The program effectively enhanced the business acumen of a group of professionals who have a bias towards a technical mindset. We would be happy to have Mike back to speak to our group in the future.
