

Testimonial for keynote speaker Mike Hourigan

Hutchinson Health partnered with Mike to deliver a leadership training session on managing change. Mike was easy to work with from the beginning and really took time to get to know and understand our organization to best customize the training. He was an engaging and fun speaker in addition to providing us with concrete strategies for managing change, meaningful exercises and great tools to use with our staff. Mike extended an offer to be available for questions after the training session and when we called, he was there just like he said he would be. Our leadership team ended the day feeling motivated and encouraged.

Thank you,

Becky Streich
